

Dr Tony Vassallo
Project Manager
ATeNergy

Tony Vassallo is the Director of Invenergy Pty Ltd, a company that he set up in 2003 to assist organisations develop and introduce new energy technologies, and to promote sustainable energy research and commercialisation.

Prior to this, Tony spent 20 years with the CSIRO, latterly as a Senior Principal Research Scientist in the Division of Energy Technology. In this position, Tony set up and was the inaugural director of the Centre for Distributed Energy & Power, a non-incorporated consortium of industry and government organisations providing leadership in the technological aspects of distributed generation. Previously he was Business Development Manager for energy storage and Project Leader of supercapacitor development in CSIRO.

Tony has an honours degree in chemistry from the University of Technology, Sydney, (1977) and a PhD in energy science from Macquarie University (1986) as well as completing MBA level studies in the Management of Innovation (Macquarie University). Tony is a director of the Australian Institute of Energy and immediate past chairman of the Sydney Branch of the AIE.
